

Dear Volkswagen driver: you can help

**STOP**

a genocide against millions of muslims.

**Uyghur Muslims are facing  
a genocide in China...**

**...yet VW run a factory  
in the Uyghur region.**

**STOP UYGHUR GENOCIDE**

Millions of Uyghurs are locked in camps in China. They are used as slaves. Women are sterilised and children are stolen from their parents. Mosques are bulldozed.

Despite VW's dark history with slave labour in WW2, the company still runs a factory in the Uyghur region alongside this genocide.

**Please tell VW you won't be buying  
another car from them until they  
close their factory.**
